Limitation of Scope and Site Readiness Contingency

All fixed-price proposals and estimates provided by JD Manufacturing Inc are strictly predicated upon comprehensive site readiness and unencumbered access to the work area. The Client represents and warrants that, prior to the deployment of our personnel, all prerequisite inspections shall be satisfactorily completed, and all subject equipment shall be fully decontaminated, prepared, and made readily accessible.

JD Manufacturing Inc assumes no liability for project delays arising from operational impediments, facility disruptions, personnel unavailability, or any acts or omissions by the Client. Should our technicians incur standby time, work interruptions, or extended labor durations resulting from the Client's failure to satisfy these site readiness obligations, such delays shall be deemed out-of-scope. Consequently, any supplementary time incurred will be billed directly to the Client as additional labor at JD Manufacturing Inc's prevailing standard, overtime, or holiday rates, as applicable.
